Easy Installation

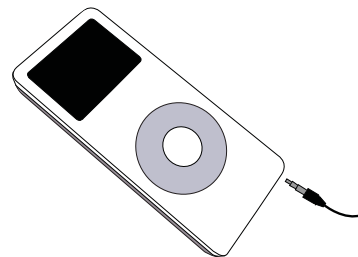

The way in which Diva 2.1 is designed allows ease of use and simplicity in terms of connection. Simply install the tube subwoofer to the back of your computer and use the standard 3.5mm audio jack for the audio connection. Connect the power supply and It is as easy as that! And with their ultra-compact design they are ideal to carry around on any journey.

Connect your iPod

Diva 2.1 also works perfectly with your iPod, enabling you to obtain maximum sounds with a fantastic quality.

So whether you have an iPod nano, mini or classic, you can take full advantage of Diva 2.1 simply by connecting it to the headphone port of your iPod.

Impeccable sounds

Diva 2.1 allows you to blast out your favourite music without being too loud. It provides the listener with a spacious and extremely warm realistic sound. It's capable of reproducing sound quality at an incredible high standard, with particular attention paid to detail.

Unique aluminium design

The innovative design of the tube subwoofer ensures high performance and superb detailed bass. This special design allows for optimal performance ensuring a lack of distortion and greater sound time and time again.
