

# DualDisk™

The Next Generation FireWire Storage Solution

**Miglia**  
www.miglia.com

## Key Features

- High Speed FireWire 800 Storage
- 16 MB of cache with WD's Raid Edition drives
- Robust, ultra-slim aluminium case
- Quiet and efficient DCS™ cooling system
- Bootable, Generous storage capacities
- 5 year warranty on WD powered versions

## FireWire storage redefined

Great to look at, simple to use, Miglia Storage products are designed for professionals hungry for space and speed, large Video and Audio storage needs are easily met with your DualDisk.

Integrating two Western Digital Raid Edition hard drives with a total of 16 MB of cache, the ultra-slim aluminium enclosure combines vast amounts of storage space with incredible data transfer rates peaking at 88 MB/sec. Thanks to its advanced DCS™ cooling system, the hard drives run at low temperatures at all times, thereby lengthening their lifespan.

Designed and built to last, DualDisk is made from robust, shock resistant aluminium, giving the best possible protection for your valuable data. Best of all, the Western Digital powered DualDisk ships with a unique 5 year warranty!

### Mac Compatibility

Mac with FireWire Connectivity  
Mac OS 9.1 or higher (FireWire 400)  
Mac OS X 10.2.5 or higher

### PC Compatibility

PC with FireWire Connectivity  
Windows XP

## Get the speed factor

Powered by Miglia's exclusive Catalyst 912 FireWire interface, DualDisk brings a whole new level of performance to FireWire storage. Catalyst 912 was created by Miglia in partnership with Oxford Semiconductor, the industry leading provider of FireWire technology.

Featuring hardware level support for Raid 0 (Striping), DualDisk reads and writes data to two hard drives simultaneously, thus achieving incredible data transfer rates.

DualDisk appears as a single volume on your desktop, a major benefit for users who need large amount of contiguous storage space.

### High Quality Aluminium

DualDisk, like all external peripherals from Miglia, is made out of solid aluminium. We did not choose the easier lower-quality but traditional route of plastics. Metal also offers better protection and a much greater lifespan than plastic.

### Perfect cooling

DualDisk features Miglia's exclusive Dual Cooling System (DCS) to keep the operating temperature of your hard drives to an optimum level. By transferring heat to the aluminium case and using a quiet ball-bearing fan, DualDisk ensures that hard drives will not overheat, thus lengthening their lifespan and the overall level of data security.

## Technical Specifications

FireWire Interface:	2x FireWire 800/IEEE 1394b ports (9 pins)
ATA Interface:	ATA/133, compatible with ATA 66/100/133 drives
Hard Drives:	2x Western Digital Raid Edition Hard Drives
Rotational speed:	2x 7200 rpm
Hard Drive Cache:	2x 8 MB (total 16 MB)
Driver support	Directly supported by the Operating System (Mac/Win)
Cooling:	1x Fan, Passive cooling via case
Power	5V, 3.5 A, 12V 4A. External Power Supply
<b>Dimensions:</b>	
Length:	220 mm, 8.7"
Width:	245 mm, 9.6"
Height:	37 mm, 1.45"
Weight	1.9 KG
Warranty:	5 years warranty (return to base) for WD units
	2 years warranty (return to base) on empty units

## What Ships in the box?

- DualDisk™
- Auto-switching power supply (110V - 240V)
- FireWire 800 cable
- CD-ROM with installation guide (pdf)
- Warranty card
