Introduction and Overview of TVDuo

Introduction

Thank you for choosing TVDuo™ from Miglia Technology. TVDuo™ lets you watch, pause, rewind and skip forward live digital terrestrial TV on your Mac and enables you record TV shows straight to your hard drive.

TVDuo supports the DVB-T standard, called Freeview in the UK and TNT in France. TVDuo features a dual tuner allowing you to watch one channel while you record another or record two channels simultaneously.

System requirements:

- Mac with built-in USB 2.0 connectivity
- G4/1 GHz or faster, G5, Intel Core processor
- 512 MB of RAM
- 50 MB Free hard drive space.
- Mac OS X 10.4.x or higher
- QuickTime 7.0.x or higher

- Area covered by DVB-T signals

Package contents

- TVDuo
- 2x Mini-Antenna
- Infrared Remote Control
- USB 2.0 cable
- CD-ROM with EyeTV software and user guide (pdf)
- EyeTV Serial Code card
- Quick Install Guide

User Guide Overview

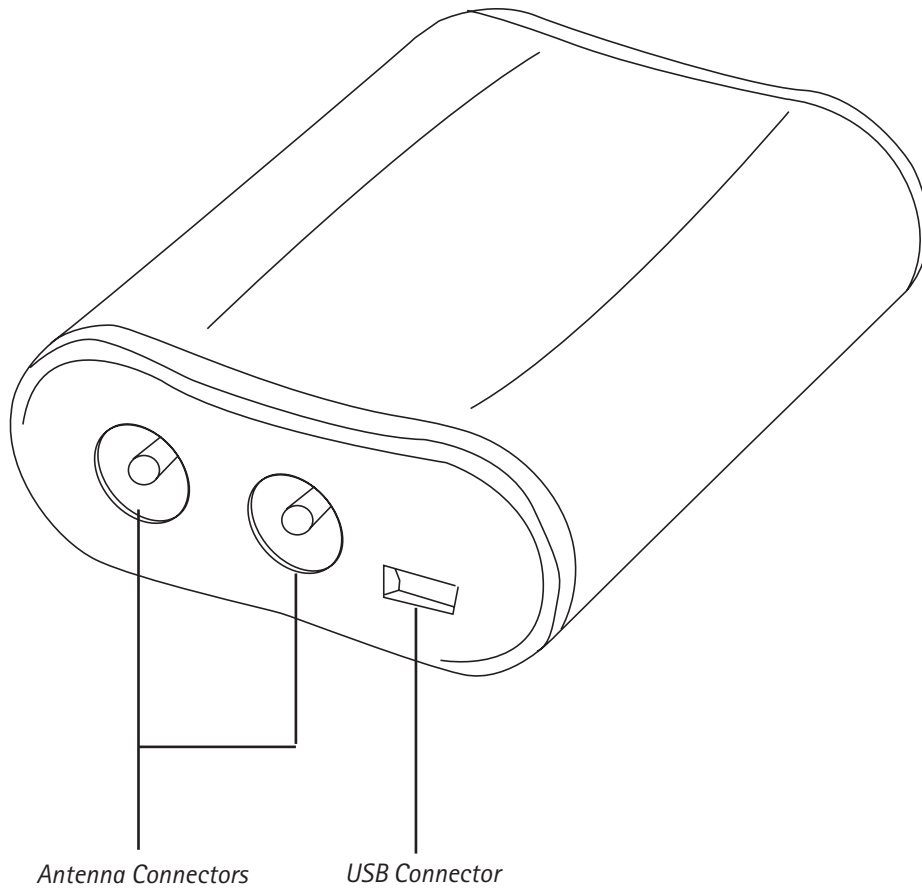

This User Guide will guide you through the hardware and software installation. A detailed description of EyeTV's functionality is available on a separate pdf located on the CD-ROM.

Technical Support

Should you ever have any questions regarding your product, please do not hesitate to contact Miglia Technology (hardware support, <http://www.miglia.com/Support>)

Overview of TVDuo

TVDuo features two antenna connectors as well as a USB connector at the back of the unit. The USB connector is used for communication with your Mac.

Installing and using TVDuo and EyeTV software

I. Connecting TVDuo

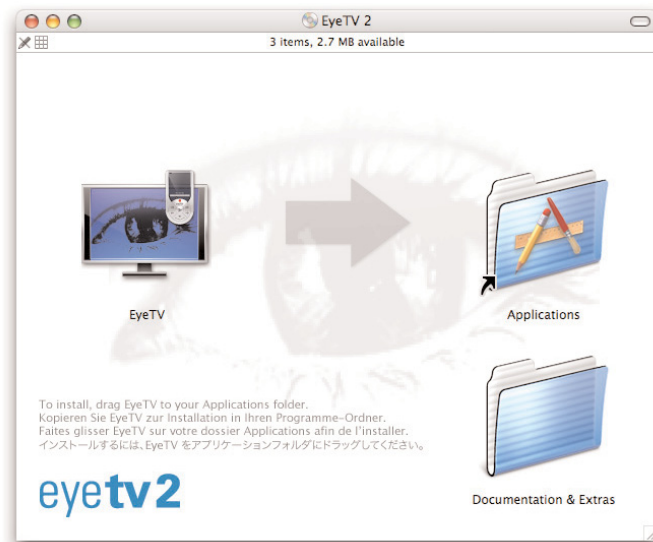

1. Connect TVDuo to a free USB 2.0 port of your Mac.
2. Connect the two mini-antennas to the back of TVDuo.

Note: The mini-antenna will only work in areas where DVB-T reception is good. You should not have any difficulties receiving the full range of TV stations if you live in Germany or northern European countries. In the UK and France, it is strongly recommended to place the antenna near a window, as 'indoor mobility' is not yet implemented.

If you do not receive any channels when using the mini-antenna, connect TVDuo to a roof-mounted antenna using a splitter.

II. Installing EyeTV

1. Insert the EyeTV CD-ROM in your CD/DVD Drive
2. Drag the EyeTV icon onto your applications folder. A shortcut to the Applications folder is located on the CD-ROM. You can now eject the CD-ROM.

3. Double-click on the application 'EyeTV' now located in the Applications folder.
4. EyeTV's Setup Assistant will launch automatically..

5. Please select "Miglia" as the manufacturer and "TVDuo" as the product and click next

6. Please follow the onscreen instructions. When required, please enter the software serial number located on the EyeTV serial card included in the package.
7. When asked, select your country and type of service. Then click on 'Auto-Tune'. Then click 'Next'
Note: If the Auto-tune does not find any channels, please connect a roof-mounted antenna or move the mini-antennas closer to a window.

7. Included with TVDuo is a one year free subscription to the tvtv service (available in many European countries). Please click on 'Create Account' to open a tvtv account, which will be integrated with the software, giving you a complete overview of TV schedules.

8. Once the Setup Assistant has completed, the TV window will automatically open.

For additional information on how to use EyeTV software, please refer to the user guide located on the CD-ROM.

Warranty Agreement

Hardware Products:

Miglia Technology warrants your hardware product against any defect in material and workmanship, under normal use, for the designated warranty period. The warranty becomes effective from the date of purchase by the end user.

If the product is found to be defective within the warranty period, Miglia Technology Ltd will, at its sole option, repair or replace the defective product.

Miglia Technology Ltd will not, under any circumstances, be liable for direct, special or consequential damages such as, but not limited to, damage or loss of property or equipment, loss of profits or revenues, cost of replacement goods, or expense or inconvenience caused by service interruptions.

This warranty is void if:

- The product was operated or stored in abnormal use or maintenance conditions.
- The product was repaired, modified or altered or undergone attempted repair by non-authorized personnel, unless Miglia Technology Ltd has authorized such repair, modification or alteration.
- The product was damaged, abused or misused
- The product was installed without following the supplied installation instructions.
- The serial number of the product is defaced, modified or missing.
- The "Warranty Void" seal on the casing has been modified, removed or broken.

The decision of Miglia Technology shall be final and binding with regards to the condition of product return and eligibility of repair or replacement.

Software Products:

Software Products are covered specifically for defective media or manuals only, for a 14 day period. The software license you acquired cannot under any circumstance be transferred back to Miglia Technology Ltd. Miglia does not warrant or represent that all third-party software or hardware will function error-free when used in conjunction with its products.

How to obtain warranty service:

To obtain warranty service, within 30 days of the date of purchase, please contact the retailer from whom you made your purchase. To obtain warranty service, after 30 days of the date of purchase contact Miglia Technology Ltd's Technical Support Service. A proof of purchase will be required to confirm that the product is still under warranty. Should Miglia Technology Ltd's Technical Support diagnose a fault on your product, a Return to Manufacturer Authorisation (RMA) number will be issued to you.

All products returned to Miglia Technology Ltd must be securely packaged in their original box and shipped at the customer's cost inclusive of any requested documentation. Return shipment of repaired or replaced product will be covered by Miglia Technology Ltd.

Any product returned without an RMA number issued by Miglia Technology Ltd's Technical Support Service will be refused.
